The **Academy of Italian Cuisine** is a cultural institution founded in 1953 under the auspices of the President of the Italian Republic, with the purpose of promoting the Country's authentic culinary tradition domestically and internationally. Its mission is to protect traditional Italian cuisine and to promote its diffusion.

The Los Angeles Chapter of the Academy of Italian Cuisine actively develops promotional and educational initiatives with local restaurants and awards certificates to those restaurants meeting the criteria and serving high quality Italian traditional dishes.

Marchio Q - Ospitalità Italiana is an Italian government initiative aiming at creating a worldwide network of Italian restaurants that meet and exceed outstanding standards of Italian hospitality, thus promoting the traditional Italian culinary culture.

The Los Angeles-based Italy-America Chamber of Commerce West is deeply involved in the certification process of those Italian Restaurants that wish to receive this priced recognition.

The Chamber develops communication activities and awareness campaigns among the Italian restaurants, encouraging them to partake in the project. It also gathers applications, inspects the restaurants, ensuring compliance with the requirements.
